

RAND PAUL
REPUBLICAN SENATOR,
KENTUCKY

Senator Rand Paul

Dear Fellow Patriot,

Anti-gun statistis around the globe believe they have it made.

The United Nations is done with its dirty work finalizing the details of their so-called "Small Arms Treaty."

With the full backing of President Obama now in his last year in office, time is running out until an all-out Senate ratification showdown on the U.N. "Small Arms Treaty."

If you and I are going to beat this Treaty, we simply must fight back NOW before it's too late.

I'm doing everything I can to help expose the TRUTH about this radical scheme.

But today I'm asking you to join me by taking a public stand against the U.N. "Small Arms Treaty" by signing the Official Firearms Sovereignty Survey right away.

With the national media still pushing anti-gun propoganda after the horrific terrorist attack in San Bernardino, CA, President Obama and his anti-Second Amendment pals believe the timing has never been better to ram through the U.N.'s global gun control crown jewel.

Reading through the details of the Treaty, it's hard to see how our Second Amendment could survive such an assault.

In fact, Article V of the Treaty mandates countries establish a "National Control List" -- or NATIONAL GUN REGISTRATION database!

You and I both know gun registration is just the first step toward outright

President Obama is working with anti-gun Senators to ratify the "Small Arms Treaty."

CONFISCATION.

But the truth is, the U.N. is already plotting the next step -- developing new "International Small Arms Control Standards" (ISACS). Their goal is to impose these radical anti-gun initiatives on every nation who signs the U.N. "Small Arms Treaty."

Introductory language already includes:

- *** Mandated national "screening" for all persons seeking to own guns, giving bureaucrats the final say on whether or not you're "competent" enough to own a gun;
- *** Licenses for gun and ammo sales, and perhaps even bans on certain types of firearms. This could include anything from semi-auto rifles to shotguns to handguns!
- *** Restrictions on how many guns and ammo any properly-licensed individual may legally own;
- *** Bans on magazines holding more than ten rounds;
- *** Bans on owning a firearm for self-defense -- unless a citizen can somehow demonstrate need and get federal government approval.

That's why your IMMEDIATE action is so important.

To those who think government holds all the answers, the United States isn't a "shining city on a hill" -- it's an affront to their grand "utopian" designs for all of us.

And as long as Americans remain free to make our own decisions without being bossed around by bureaucrats, those who want big government on a global scale will be out of luck.

That's why I was so excited to see the National Association for Gun Rights leading the fight to stop the U.N.'s so-called "Small Arms Treaty!"

Their efforts over the past few years have stymied President Obama and Harry Reid every time they've sought to ram gun control through the Senate.

The knotted gun statue at the U.N. in New York City symbolizes its anti-gun radicalism.

In fact, without NAGR's bare-knuckled, no-compromise tactics, I believe President Obama would have already succeeded in passing any number of anti-Second Amendment schemes.

But the truth is, NAGR depends on the action and support of good folks like you for their effectiveness.

So will you join them by going on record AGAINST global gun control and sign the Official Firearms Sovereignty Survey today?

Thanks to the help of good folks like you, the National Association for Gun Rights has taken the lead role in Washington, D.C., beating back gun control schemes.

But the stakes couldn't be higher with the U.N. "Small Arms Treaty." So there's no time to waste.

After all, the last thing President Obama wants is for you and me to have time to mobilize gun owners to defeat this radical agenda.

The gun control crowd has made that mistake before, and we've made them pay, defeating EVERY attempt to ram the U.N. "Small Arms Treaty" into law since the mid-1990s.

Already, parts of the U.N.'s radical agenda are slipping through covertly. In fact, Obama's State Department even bragged that Project Gunrunner and Operation Fast and Furious are implementations of the U.N. anti-Second Amendment agenda!

Then you and I saw President Obama issue a flurry of anti-gun Executive Orders in the past months targeting law-abiding gun owners, many of which are rooted in the demands of the U.N. "Small Arms Treaty."

Once President Obama decides the time is ripe to submit the Treaty, this fight is going to move FAST.

So if you and I are going to defeat this U.N. Treaty, we have to turn the heat up on Congress right now before it's too late!

1. Do you believe the U.S. Constitution, the Bill of Rights, and the Second Amendment are the supreme law of the land?
2. Do you believe any attempt by the United Nations to subvert or supersede your constitutional rights must be opposed?

If you said "Yes!" to these questions, please sign the survey the National Association for Gun Rights has prepared for you.

With your help, the National Association for Gun Rights will continue to turn up the heat

on targeted Senators who are working to implement the U.N. "Small Arms Treaty."

Direct mail. Phones. E-mail. Blogs. Guest editorials. Press conferences. Hard-hitting Internet, newspaper, radio and even TV ads if funding permits. The whole nine yards.

Of course, a program of this scale is only possible if the National Association for Gun Rights can raise the money.

But that's not easy, and we may not have much time.

So along with your survey, please agree to make a generous contribution of \$250, \$100, \$50 or even just \$35.

And every dollar counts in this fight, so even if you can only chip in \$10 or \$20, it will make a difference.

Thank you in advance for your time and money devoted to defending our Second Amendment rights.

For Freedom,

Rand Paul
United States Senator (R-KY)

P.S. You and I could be facing a Senate ratification fight over the U.N. "Small Arms Treaty" at any moment now that Barack Obama is in his final months in office.

If we're going to defeat the U.N. "Small Arms Treaty" gun owners have to turn up the heat now before it's too late!

Please return your Firearms Sovereignty Survey and put yourself squarely on the record AGAINST the U.N. "Small Arms Treaty."

And if you can, please make a generous contribution to the National Association for Gun Rights of \$250, \$150, \$100 or even just \$35 right away!

And every dollar counts in this fight, so even if you can only chip in \$10 or \$20, it will make a difference.
